## Aurora LIGHTS Health Sciences Pathway

*Educating the Next Generation of Health Care Professionals*

In 2008, a \$3.9 million federal grant funded the Aurora LIGHTS program and established an academic and career pathway that focuses on health care professions.

Students at Aurora LIGHTS schools benefit from an ambitious curriculum that includes health sciences studies, hands-on learning at the state-of-the-art Anschutz Medical Campus, and interaction with medical professionals and health care experts.

### Aurora LIGHTS Schools

#### Elementary Schools

- Laredo Elementary School
- Montview Math & Health Sciences Elementary School
- Paris Elementary School
