APS Preschools Earn Four-Star Ratings

Children who attend high-quality preschools enter kindergarten with better pre-reading skills, larger vocabularies and stronger basic math skills than those who do not. The APS Preschool Program ensures that all preschool students transition into kindergarten with the experiences and skills necessary to reach high levels of learning throughout their academic career.

Recently, the preschool programs at the Jamaica Child Development Center and at Altura, Peoria and Vaughn elementary schools each earned a Qualistar four-star rating. The Qualistar rating measures quality in licensed early learning programs. The four-star rating is the highest possible score.
