being employed, either by verification of performance in previous employment and/or testing.

3. An employment letter shall be issued to each classified employee for that particular year in which any salary changes have been made.

All requests for consideration for the granting of additional steps must be directed to the director, classified/licensed employees, and will only be considered when there is sound rationale in support of the decision. Credit for outside experience: Credit for outside experience in coaching shall be allowed on a step-for-each-year basis up to five years. This experience must be in the activity to which the teacher is assigned. For teachers hired after Jan. 1, 1979, no credit shall be given for outside experience at a middle or junior high level if the teacher is performing duties under this Appendix B at the high school level, except that teacher with ninth-grade coaching experience shall receive credit assigned to a ninth-grade coaching assignment in the same activity. In addition, in its sole discretion, the District may give year-for-year credit or it may give less than year-for-year credit for outside coaching experience of more than five years. The District shall not grant more than five years credit unless the chief personnel officer deems it necessary to do so to obtain highly qualified coaches in a particular sport.

Experience credit within the District: Those teachers within the school district shall receive experience credit for each year in a given activity without penalty for grade level or title (e.g. an assistant coach in basketball at the middle school level shall receive full credit for years of experience toward a position in basketball at the senior level).
