Page 1 of 2

As stated in C.R.S. 22-32-109(n)(1), the Board of Education shall determine the length of time that the schools of the district shall be in session during the school year, but in no event shall schools be scheduled to have fewer than:

The district recognizes the need for teachers to extend the normal school day for elementary students in order to provide extra help for students who have been absent; require additional assistance to master a subject; or to enforce penalties for the proper management of student behavior. Teachers may utilize recess or before/after school time for these purposes. If the student's school day is to be extended, efforts will be made to contact the parent. Extension of the student's school day may be no longer than 15 minutes without prior parent permission.

SECONDARY SCHOOLS:

Grades six through twelve: 1080 hours per school year

K-8 SCHOOLS:

Half-day kindergarten: 450 hours per school year
Full-day kindergarten: 900 hours per school year
Grades one through five: 990 hours per school year
Grades six through eight: 1080 hours per school year

C.R.S. 22-32-109(n)(II)(A) further states that actual hours of teacher-pupil instruction and teacher-pupil contact may be reduced to no fewer than:
