District Conduct and Discipline Code

APS Code: JK.1

Page 1 of 2

This policy and its accompanying regulation, along with policies JKD/JKE, Suspension/Expulsion of Students; policy JICI, Weapons in School; JICH, Drug and Alcohol Use by Students; JKD.1, Disciplinary Classroom Removal by Teacher (Suspension from Class); JBC, Prevention of Bullying; and policy JICF, Secret Societies/Gang Activity constitute the Aurora Public Schools District Conduct and Discipline Code. The Code is based on the principle that every student is expected to follow accepted rules of conduct and to show respect for and to obey persons in authority in the schools. Respect for school personnel and obedience to such personnel is an essential lesson to qualify one for the duties of citizenship.

This Conduct and Discipline Code shall be in effect in all schools in the District, from kindergarten through high school, and shall apply to all other programs including preschool, post-secondary and T.H. Pickens Technical College. This Code applies to conduct at any school, on District property, in District vehicles, at any school-related activities (whether or not the school-related activity is on or off campus), and under circumstances where off campus behavior has a connection to school or any District curricular or noncurricular activity or event and is detrimental to the welfare or safety of other pupils or school personnel.

The Conduct and Discipline Code shall be enforced in a manner consistent with policies ADH*, District Philosophy Statement on Student Discipline and ADHA*, District Statement on Shared Responsibilities in Promoting Safe Schools. Students, staff members and parents are expected to become familiar with those policies. In light of the principles described in these policies, one of which is that discipline should be used as a tool for learning, whenever feasible students shall be given make-up assignments for work taking place while they are out of school on suspension. In addition, students who complete such assignments in a timely manner shall be given credit for that work.

Remedial discipline plans

The principal may develop a remedial discipline plan for any student who causes a material and substantial disruption in the classroom, on school grounds, in school vehicles or at school activities

or events. The goal of the remedial discipline plan shall be to address the student's disruptive behavior and educational needs while keeping the child in school.

Distribution of conduct and discipline code

The conduct and discipline code shall be provided to each student upon enrollment in elementary, middle and high school. The district shall take reasonable measures to ensure each student is familiar with the code. Copies shall be posted or kept on file in each school of the district. In addition, any significant change in the code shall be provided to students and posted in each school.

Administrators should plan for the use of prevention and intervention strategies such as restorative justice, peer mediation, counseling or other approaches to address student misconduct and should impose proportionate disciplinary interventions and consequences in response to student misconduct.

Violations of the District Conduct and Discipline Code shall subject the violator to discipline consistent with these policies. Violations may also result in referrals to law enforcement agencies.

under Colorado law, this is the only offense that is a mandatory expulsion.

II. Specific Examples of Misconduct and Consequences

If discipline is suspension or expulsion, the due process procedures of district policy JKD/JKE, Suspension/Expulsion of Students will be followed. Where the proposed discipline is expulsion, a student is entitled to a hearing under policy JKD/JKE at which s/he may contest the finding that an offense was committed and/or the consequences. This list does not cover everything that a student might do which could result in discipline; it is meant to identify many of the offenses which might be committed by students and to illustrate the sort of conduct which is not allowed. Individual schools may identify additional offenses and outline consequences for such offenses so long as they are not inconsistent with district policy and the school takes appropriate steps to inform students and parents/guardians of these additional offenses and consequences.

Schools are encouraged to consider which of the consequences listed in the discipline action levels below are most appropriate for a given situation but are not required to utilize any specific disciplinary consequence except where specifically so provided in district policy or regulation.

III. <u>DISCIPLINE SUMMARY CHARTS</u>

Listed in the subsequent tables for middle/high schools, elementary schools, and early childhood education are examples of misconduct, if committed by a student, may result in disciplinary action. The tables provide guidance as to the range of "discipline action levels" which may be considered for the specific offenses and to the requirement of referring offenses to school administrators. Although the list of offenses is not all inclusive, both offenses and consequences shall remain consistent with district policy and applicable law.

Notes on interpreting the Discipline Summary Chart:

- In the *Behavior* column, the type of behavior is categorized.
- In the *Occurrence* column, behaviors are determined to be minor or serious in nature. A behavior could be serious in nature on the first offense or could be considered serious if a student's minor behavior has occurred repeatedly.
- In determining whether a given offense should be considered "Minor" or "Serious," and what interventions and consequences are appropriate in that specific situation, schools should consider the following factors:
 - o The age of the student;
 - o The disciplinary history of the student;
 - O Whether the student has a disability;
 - o The seriousness of the violation committed by the student;
 - Whether the violation committed by the student threatened the safety of any student or staff member; and
 - Whether a lesser intervention would properly address the violation committed by the student.
- The numbers found in the *Discipline Minimum/Maximum* column refer to the Discipline Action Levels of intervention.
- In the *Referral to School Administration* column, staff members are required to refer those behaviors marked "always refer" to the school administration. With some identified

 - o degree of disruption to the educational process or the school; generally (but not always) misbehavior that occurs in the classroom or in the course of a school-related activity will be more disruptive than that which occurs during unstructured time such as in hallway/playground/cafeteria)
 - o age of the student
 - o maturity level of the student
 - o special needs of the student
 - o whether the student stops the misbehavior when told to do so
 - o whether the misbehavior has been engaged in many times
 - o discipline history
 - o number of students involved
 - o seriousness of the threat
 - o number of adults necessary to deal with the immediate incident

EARLY CHILDHOOD EDUCATION

Notes on interpreting the Discipline Summary Chart:

- Early Childhood Education refers to preschoolers in Aurora Public Schools who are enrolled as a P 3 or P 4 student;
- In the *Behavior* column, the type of behavior is categorized;
- In the *Occurrence* column, behaviors are determined to be minor or serious in nature.
- In responding to the level of seriousness, a proactive, developmentally appropriate stance that is inclusionary in practice, rather than moving to an out-of-school suspension or expulsion should be the primary mode of discipline with $\mathbf{any} \ P 3$ or P 4 student.

Preschool classrooms operate from a proactive mode to teach explicit behaviors and expectations, rather than reacting to behaviors in order to prevent the need to engage in disciplinary action. The following procedures and guidance should drive response to young children who may be evidencing challenging behaviors in preschool:

- 1. Have clearly developed classroom rules, procedures and expectations of creating positive child, staff and family relationships (including guidelines for parent/family involvement see Early Childhood Education Staff and Family Handbook)
- 2. Implementation of teaching strategies that support positive behavior, pro-social peer interaction,

and overall social and emotional competence in young children;

- 3. Provision of individualized social and emotional intervention supports for children who need them, including methods for understanding child behavior, and developing, adopting and implementing team-based positive behavior support plans with the intent to reduce challenging behavior to prevent suspensions and expulsions;
- 4. Access to an early childhood mental health consultant or other specialist as needed.

An asterick (*) indicates offenses which may be referred to law enforcement.

However, if at any time law enforcement is needed for the safety of students and staff, police may be called.

IV. Attempting to Commit an Offense

In addition, schools have the authority to impose disciplinary action for an attempt to commit an offense, where in the judgment of the school administration it is appropriate to do so under the circumstances. "Attempt" for purposes of the preceding sentence includes an attempt to commit, aiding, or abetting the commission of, conspiring to commit, or participating in any manner, even though unaccomplished, in the commission of any of the offenses designated.

Offenses requiring referral to law enforcement are indicated in the Discipline Summary Charts. Other offenses may be referred to law enforcement as indicated by an asterisk. However, if at any time law enforcement is needed for the safety of students and staff, police may be called. Referral to law enforcement is defined as communication between a school administrator, teacher, or other school employee and a law enforcement agency which is initiated by an employee, concerns behavior, and requests law enforcement involvement or investigation.

VI. Habitually Disruptive Students

A disruptive act is one involving behavior which causes a material and substantial disruption in the classroom, on school grounds, in school vehicles, or at school activities or sanctioned events.

Before determining that an act is disruptive, the student should be given an opportunity to explain her/his side of the story regarding the incident. Whether a given act is disruptive shall be determined by the school administration in consultation with the staff member(s) who observed or know about the conduct. For an act to be counted as one of the three disruptive acts leading to declaration as an habitually disruptive student, both the student and the parent/guardian must be notified in writing and by phone (or other means) of the definition of an habitually disruptive student, that the act will be counted as one of the three disruptive acts potentially leading to being labeled as habitually disruptive, and that a student who commits three or more disruptive acts during a school year may be expelled.

In most disruptive acts which may lead to the status of a habitually disruptive student, progressive discipline will be employed, i.e. progressively more severe consequences for

each successive disruptive act will be implemented. In such cases, the school should put a behavior support plan in place immediately after the first habitual disruptive offense. The behavior support plan should be revised as appropriate if the student continues to misbehave. All interventions which have been utilized to assist the student should be documented by the school throughout the habitually disruptive process.

APS Code: JK.1-R

However, the nature of the discipline imposed in each case and whether progressive discipline is appropriate for a given case is up to the administrator to determine. A single disruptive act may be serious enough to warrant expulsion, but in such cases the expulsion will be brought on grounds other than that the student is "habitually disruptive" (for example, the ground for expulsion might be "continued willful disobedience or open and persistent defiance of proper authority", or "behavior which is detrimental to the welfare or safety of other pupils or of school personnel").

Students with disabilities (either Section 504 or IDEIA) may only be expelled as habitually disruptive students where a staffing team or building intervention team has determined that each disruptive act counted toward declaring the student "habitually disruptive" and that the behaviors are not a manifestation of the student's disability.

VII. Use of Reasonable Force

Teachers and other district employees shall have the responsibility to determine and enforce consequences to ensure the proper management of their classes and the appropriate behavior of pupils. All teachers, administrators and other district personnel are authorized to use reasonable and appropriate acts of physical force in compliance with policy JKA, Physical Intervention.

VIII. Procedural Issues

- A. **Misconduct away from school**. Misconduct which does not take place at a school or at a school-related function may, in some cases result in student discipline if the misconduct is detrimental to the welfare or safety of other pupils or of school personnel. Conduct which is disruptive to the school's educational process, or to the ability of a given child to concentrate on her/his studies, may be found to be detrimental to the welfare of pupils. In summary, something that happens away from school may result in discipline at school.
- B. **Consequences.** The consequences described in this regulation are those which will most likely be imposed in the usual case for a given offense. However, unless a specific consequence is mandated by law, a greater or lesser consequence may be imposed in a given case because of the specific circumstances of the case, such as the age and/or maturity of the student.
- C. **Standard of proof.** The standard of proof in determining whether acts of students constitute violations under the District Conduct and Discipline Code shall remain at all times one of substantial evidence (i.e. whether there is substantial evidence to support the charge), whether or not the definition of such acts is taken from the criminal law.

DEFINTION OF OFFENSES

The behaviors and various terms listed in this regulation are defined as indicated below.

01 DRUG VIOLATION

For all offenses under this category, the terms "controlled substance" and "drug" shall be synonymous and shall be defined as in 21 USC 802(6) and include, but are not limited to certain narcotic drugs, hallucinogenic or mind-altering drugs or substances, amphetamines, barbiturates, stimulants, depressants, cocaine, marijuana, prescription drugs and anabolic steroids and shall also synthetic drugs (k2, spice).

CONTROLLED SUBSTANCE: OTHER THAN MARIJUANA POSSESSION

Students shall not possess, use, consume, have consumed or be under the influence of any drug on school grounds, in any District vehicles, or in connection with school-related activities. (Prescription medication and over the counter medication must be secured in the health office at all times. The exception is that high school students may have one day's worth of such medication for self-administration during the school day, provided such medication is not a controlled substance.)

CONTROLLED SUBSTANCE: OTHER THAN MARIJUANA SALE

The sale, exchange, distribution or gift of drugs including anabolic steroids and prescription drugs. As used in this definition, "drug" includes substances that are represented by or to the students to be a drug or what the student believes to be a drug. Distribution means the transfer of a controlled substance from one person to another.

DRUG PARAPHERNALIA POSSESSION

02 ALCOHOL VIOLATION

ALCOHOL

Students shall not sell, purchase, exchange, possess or use alcohol on school grounds, in any District vehicle, or in connection with school-related activities.
